

Academy Overview

"An innovative school of thought"

At N-GENioUS Academy, our goal is to prepare 6th through 8th grade students for the transition from middle school to high school. Developing character, exploring new ideas, and building a strong work ethic are goals emphasized in a supportive and caring environment.

Our small class sizes, expert instructors, and innovative curriculum combine to create high quality and engaging educational experiences. N-GENioUS teachers use a hands-on approach, which takes the focus off repetitive memorization drills and teaches students the value of understanding the deeper concepts behind what they're learning.

We offer a full time replacement for a student's current academic situation. Whether your child is struggling in school, needing individual assistance at their own pace, or looking for a complete change from their current academic plan; N-GENioUS Academy provides the flexible solution that many parents are looking for.

All classes are aligned to California State Standards and are fully transferable to all local public and private schools. Subject areas include:
