Private Tutoring

For those parents looking for private tutoring, we will be offering one-on-one instruction for the months of June, July, and August. For each student, a personalized plan of instruction will be developed based on parent and student objectives. Once a summer schedule is established, a series of lessons and activities will be created to directly relate to each child's interests, strengths, and weaknesses. Each session will focus on mastery of essential academic, social, and study skills, as well as preparation for upcoming classes and transitions for the 07/08 school year.

Small Group Projects

For those parents looking for more of an enrichment experience for their child, we have a more open ended approach. If you know of a group of 3-5 students who have similar interests, abilities, and schedules; we would love to work with them. This option is extremely flexible and we have the capability of designing an interactive curriculum that addresses the needs of each group. In short, if you have a group that it willing to learn, we will design a project to help them reach their goals.

NOTE: To ensure that our time together is used as efficiently as possible, we will not finalize a course of action until a schedule is confirmed. This will help prioritize academic and study skills, as well as give each parent and student a clear plan of action for the summer months.
